♥ Snowboarding

EXPERIENCE

Kili Technology

Senior full stack developer

september 2023 - today

ManoMano

Staff Software Engineer

may 2022 - september 2023

Senior Frontend Developer

july 2020 - april 2022

Frontend developer

december 2018 - june 2020

I was part of the ManoMano core team and I support the teams of front-end developers in their daily work as technical referent.

I put in place the new front-end stack of the website during its last redesign as well as all the necessary tooling and documentation for developers to work in good conditions.

I have actively worked on things like improving site performance, speeding up CI/CD, and improving developer life, which was my favorite part.

Technologies used: React, Next.js, Jest, React Testing Library, Redux, Docker, Kubernetes, Gitlab CI.

GE Healthcare

Software engineer

october 2015 - november 2018

I worked on the frontend part of an SDK that aims to facilitate the creation of applications to visualise DICOM medical images.

Technologies used: AngularJS, TypeScript, Protractor, Git, Webpack, Docker, Jenkins.

EDUCATION

EIGSI La Rochelle

General engineering degree

2012 - 2015

MAIN SKILLS

JavaScript, TypeScript, React, Node.js, Git, Docker.
